

Fallback processes for capacity bookings in case of unavailability or failure of the relevant capacity booking platform (Gaz-System auctions platform/GSA, Regional Booking Platform/RBP and European Capacity Platform PRISMA)

| | |
|--|---|
| <p>Company and address</p> | <p>Thyssengas GmbH Emil-Moog-Platz 13 44137 Dortmund Germany</p> |
| <p>Relevant capacity booking platform(s)</p> | <p><input type="checkbox"/> Gaz-System auctions platform (GSA) <input checked="" type="checkbox"/> European Capacity Platform (PRISMA) <input type="checkbox"/> Regional Booking Platform (RBP)</p> |
| <p>Fallback-processes for short-term bookings</p> <ul style="list-style-type: none"> • day-ahead capacity • within-day capacity | <p>As far as the relevant processing systems are available, depending on the booking situation as well as depending to the situation regarding the allocation of capacities to balancing groups/accounts, the following fallback process is in place to the best skills and abilities : At cross-border interconnection points, market area interconnection points and interconnection points to storage facilities, capacity booking and its processing is possible on the basis of nomination processes subject to a balancing group/account being already implemented (please ensure to implement a balancing group/account anticipatorily since an implementation is only possible during usual office hours). Capacity booking follows the General Terms and Conditions for Entry and Exit Contract (Entry-Exit-System) of Thyssengas GmbH in the respective applicable version (please refer to the section Network Access/Download area network access/ on our website.</p> <p>In order to make use of the fallback processes, please send an email to (fallback@thyssengas.com) immediately. The email must at least contain the following:</p> <ul style="list-style-type: none"> • Name of interconnection point • Time when failure and/or unavailability of the booking platform was identified • Error notification or reasoning why to make use of the fallback process (screenshot, alternatively: description of error) • Amount and runtime of the envisaged capacity booking • Balance group/account code |

| | |
|--|--|
| | <p>A verification (on the basis of the email) whether or not an actual failure and/or unavailability of the booking platform occurred is only being done during usual business hours. However, there will be no penalty for capacity overrun if a fallback process was used due to a verified failure and/or unavailability of the capacity booking platform. If it turned out subsequently that the conditions to make use of the fallback process were not met, Thyssengas reserves the right to apply contractual penalties according to our price sheet in the respective applicable version being published under Network Access/Download area network access/ on our website.</p> |
| <p>Fallback-processes for long-term bookings</p> <ul style="list-style-type: none"> • yearly capacity, • quarterly capacity • monthly capacity | <p>Since the process for long-term bookings is not time-critical, no fallback processes are in place.</p> |
| <p>Fallback process for FCFS capacity bookings</p> | <p>In case of failure and/or unavailability of the capacity booking platform it is possible to book capacities subject to the deadlines being described in our network access conditions (§ 1 para. 4). To make use of the fallback process, please send an email to the contact persons (fallback@thyssengas.com) immediately. The email must contain at least the following:</p> <ul style="list-style-type: none"> • Name of interconnection point • Time when failure and/or unavailability of the booking platform was identified • Error notification or reasoning why to make use of fallback process (Screenshot, alternatively: description of error) • Amount and runtime of the envisaged capacity booking • Balance group/account code <p>Processing of emails is only being done during usual business hours.</p> |
| <p>Fallback process for secondary trading</p> | <p>In the case of failure and/or unavailability of the secondary trading systems of the capacity booking platform, an email needs to be sent to the contact person in our network sales department (fallback@thyssengas.com) containing all relevant information about the capacity assignment. The email must contain at least the following:</p> <ul style="list-style-type: none"> • Name of interconnection point • Time when failure and/or unavailability of the booking platform was identified • Error notification or reasoning why to make use of fallback process (Screenshot, alternatively: description of error) |
