Technical data for the feed of biogas

Location of the biogas plant

Location of the biogas treatment plant

Street

Postal code/location

Parallel roads and/or crossroads

Plant technology parameters

- Renewable raw materials¹⁾
- Landfill gas¹⁾
- Mine gas¹⁾

¹⁾ Please tick where appropriate

Type of processing

Gas quality	min.	max.
Methane (Vol %)		
Carbon dioxide (Vol %)		
Hydrogen sulphide (mg/m ³)		
Hydrogen (Vol %)		
Nitrogen (Vol %)		
Oxygen (Vol %)		
Total sulphur (mg/m ³)		
Water (mg/m ³)		
Temperature (° C)		

This information is mandatory:

Transfer pressure after processing:

minimum _____ barü maximum _____ barü

Feed after processing:

minimum _____ Nm³/h maximum _____ Nm³/h
